

***Manufacture of Heat Exchangers,
Pressure vessels, Reactors, etc...***

About

Sangeetha Engineering Works Private Limited at Kochi pioneers with 3 decades of quality experience in the manufacturing of structural metal products, heat exchangers, pressure vessels, tanks, reservoirs, reactors, steam generators etc. The company is also renowned for offering state of the art services for heat exchangers and other process equipment.

The company had a humble beginning as a proprietary firm in the name 'Sangeetha Engineering Works' and within a short span of time emerged as a pacesetter in the industry. By becoming the sister concern of CALEX Group, the company gets upgraded into a private limited firm under the name **Sangeetha Engineering Works Private Limited**.

“ Vision

To become a company that can design and manufacture any structural metal products and process equipment the world needs for present and future.

“ Mission

To remain as the leader in manufacturing of structural metal products, heat exchangers, pressure vessels, reactors etc. in India, branded for excellence, quality, consistency, and timeliness.

SERVICES

We deal with manufacturing, supply, and service of different structural metal products and process equipment that are inevitable for core industries across the world. We believe in maintaining quality, reliability and high standards in all our services. We are committed to human, society and nature; thus always place an extra eye on safety standards for our products.

- ✓ Manufacturing of Process Equipments
- ✓ Tube Bundles / Retubing
- ✓ Fabrication & Machining
- ✓ Plate Cutting, Bending & Rolling
- ✓ Pipe Bending & Profile Rolling
- ✓ Skids Platform & Ladders
- ✓ Hoppers & Bins
- ✓ In-Situ Machining
- ✓ Heavy Structural Works
- ✓ Hydraulic Torquing & Tensioning
- ✓ Heavy Motor Reconditioning
- ✓ Onsite Pipe Fabrication

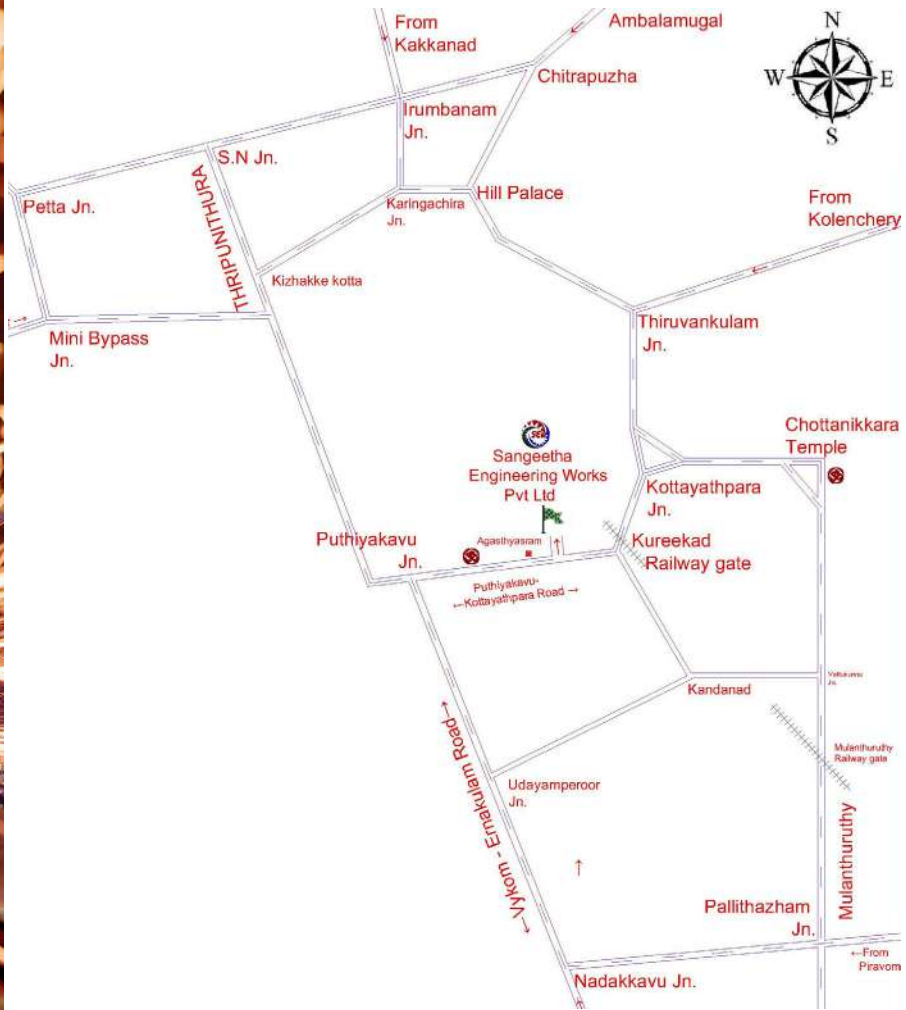

INDUSTRIES

Our Focus Areas

As the leading manufacturer and service provider of structural metal products, heat exchangers, pressure vessels, tanks, reservoirs, reactors, steam generators etc. We add value to different industries like petroleum process plant, cement, steel and marine by contributing the most excellent products and services in quality, reliability and sustainability. Our varied products are manufactured as best to suit for industrial requirements over certain focused areas.

- ✓ Refinery & Chemical Plants
- ✓ Storage Vessels & Platforms
- ✓ Utility, Power & Co- Generation Plants
- ✓ Earth Moving Equipments
- ✓ Marine Industry
- ✓ Offshore & On Shore Projects
- ✓ Aero Space & Railway
- ✓ Hydro – Electric Projects
- ✓ Cement & Paper Industries
- ✓ Heavy Engineering

“ We are the leaders in innovation!
